

SECURITY CAGES

OUR PROCESS:

1. Contact us to discuss your scope and timeframes.
2. A quote and drawings will be prepared & once accepted the job will be booked in.
3. Installation begins. You will be updated on progress and expected finish date.
4. Project is completed and site is cleaned & in working order.

STEEL SECURITY OPTIONS

- Horizontal rails: 40mm x 40mm.
- Vertical pickets: 25mm x 25mm.
- Finish: Powdercoated Black.
- Top of Pickets: Spear top or Square.
- Picket spacings: 140mm for standard panels. 125mm or 115mm for school spec fences.

WELDMESH OPTIONS

- Sizing: 50mm x 50mm x 4mm Galvanised Weldmesh fixed to square posts
- Uses: Used where a higher level of security is required compared to chainwire.
- Finish: Galvanised or powder-coated black.

We install Security Cages, typically under buildings or in factories and warehouses, in Chainwire, Steel Security, Colorbond and/or Weldmesh.

CHAINWIRE OPTIONS

- Height: From 900mm to 3600mm in 300mm increments.
- Diamond size: 50mm diamond (most common, but also available in 60mm diamond and 25mm diamond (anti-climb)).
- Gauge: 2.5mm or 3.15mm gauge wire.
- Finish: Galvanised or Black PVC coated (Green also available).
- Top detail: Barb top (sharp) or knuckle top (smooth).

COLORBOND OPTIONS

- Sizing: If 100% visual screening is required, the panels will be between 1800mm and 2400mm high.
- Mount: This is mounted using 50mm x 50mm steel posts.
- Colour: Available in all standard Colorbond colours.

SECURITY CAGES

Chainwire dog enclosures with chainwire roof and 2100mm high colorbond dividers with posts set into block wall.

Weldmesh security cage for gym equipment.

Spear top Steel Security Fencing in underground carpark.
